**OFFICE OF PETITIONS**

In re Application of  
Mitchener  
Application No. 10/700,582  
Filed: November 5, 2003  
Title: Apparatus and Method for  
Cleaning Gutters

**DECISION ON PETITION**

This is a decision on the petition under 37 CFR 1.137(b), filed March 5, 2007, to revive the above-identified application.

This petition is hereby **Dismissed**.

Any request for reconsideration must be submitted within TWO (2) MONTHS from the mail date of this decision. Extensions of time under 37 CFR 1.136(a) are permitted. The reconsideration request should include a cover letter entitled "Renewed Petition under 37 CFR 1.137(b)." This is **not** final agency action within the meaning of 5 U.S.C. §704.

This above-identified application became abandoned for failure to file a proper reply to the final Office Action of July 28, 2005. The final Office Action set a three (3) month shortened statutory period for reply. An untimely amendment after final Office Action was filed on January 26, 2006. No extension of times pursuant to 37 CFR 1.136. An Advisory Action mailed on September 18, 2006 informed petitioner the application was not placed in condition for allowance. In addition a Notice of Non-Compliant Amendment (37 CFR 1.121) was mailed on September 18, 2006. Accordingly, this application became abandoned on October 29, 2005. A Notice of Abandonment was mailed on September 20, 2006.

A grantable petition under 37 CFR 1.137(b) must be accompanied by: (1) the required reply, unless previously filed; (2) the petition fee as set forth in 37 CFR 1.17(m); (3) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to 37 CFR 1.137(b) was unintentional; and (4) any terminal disclaimer (and fee as set forth in 37 CFR 1.20(d)) required by 37 CFR 1.137(c). Where there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137 was unintentional, the Director may require additional information. See MPEP 711.03 (c)(III)(C) and (D).

The instant petition lacks item (1) the required reply. The proposed reply required for consideration of a petition to revive after a final Office Action must be a Notice of Appeal (and appeal fee required by 37 CFR 1.17(b)), an amendment that *prima facie* places the application in condition for allowance, the filing of a continuing application or a Request for Continued Examination (RCE). See MPEP 711.03(c)(III)(A)(2) and 37 CFR 1.114. The reference to the earlier filed amendment has previously been determined to be non-compliant. Thus, a reply has not been provided.

Further, a review shows that the Clifton Hunt who was authorized to prosecute the application has been classified as inactive before the Patent and Trademark. Future correspondence should be executed by a registered attorney or agent pursuant to 37 CFR 1.34 or by all of the applicant(s) for patent pursuant to 37 CFR 1.41 (b).

While an inventor may prosecute the application, lack of skill in this field usually acts as a liability in affording the maximum protection for the invention disclosed. Applicant is advised to secure the services of a registered patent attorney or agent to prosecute the application, since the value of a patent is largely dependent upon skilled preparation and prosecution. The Office cannot aid in selecting an attorney or agent.

A listing of registered patent attorneys and agents is available on the USPTO Internet web site <http://www.uspto.gov> in the Site Index under "Attorney and Agent Roster". Applicants may also obtain a list of registered patent attorneys and agents located in their area by writing to the Mail Stop OED, Director of the U.S. Patent and Trademark Office, P.O. Box 1450, Alexandria, VA 22313-1450.

For applicant's convenience, courtesy copies of the advisory action, Notice of Abandonment and final Office Action are being provided.

## DETAILED ACTION

### ***Response to Amendment***

The amendment filed on 5/18/2005 and the remarks presented therewith have been carefully considered but are moot in view of the new ground(s) of rejection.

### ***Claim Objections***

Claim 16 is objected to because of the following informalities: Part D of the claim should be listed under part C as it is a continuation of the phrase. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claim 13 is rejected under 35 U.S.C. 102(b) as being anticipated by Runck. It is noted that the applicant is claiming the subcombination of an apparatus for cleaning gutters supported by spikes and not the combination of an apparatus and gutters supported by spikes. Runck discloses a rod and rake capable of collecting debris in a gutter, the rake comprising a shaft (F) extending axially from one end of the rod and including a center tooth (C) and two side teeth (D), the center tooth extending axially from the shaft of the rake, the two side teeth extending from the shaft of the rake in

diverging relation to the center tooth and extending from the shaft of the rake a lesser distance than the center tooth, the center tooth and each of the side teeth terminating in a slight downward curve to a forwardly extending end portion with an upwardly and rearwardly inclined flat bottom surface (see figures 1 and 5), and the rake being small enough to be moved with the rod under spikes in the gutter, depending on the height of the spikes, whereby the rod is capable of being used to push the rake over debris and under spikes in the gutter to a desired point for collection of the debris and the rod may then be used to pull the rake against the debris.

2. Claim 15 is rejected under 35 U.S.C. 102(b) as being anticipated by Despain et al. Despain et al. discloses a method to collect leaves and debris in a single sweep in a gutter supported by a plurality of spikes comprising the steps of:

- a) provide a rod long enough to be extended under a plurality of the spikes,
- b) provide a rake on one end of the rod, the rake being small enough to move under the spikes with the rod,
- c) manipulate the rod to place the rake in the gutter before one of the spikes with the teeth on the rake extending up,
- d) manipulate the rod to push the rake with its teeth extending up over leaves and debris in the gutter and beneath said one spike and beneath successive spikes to a desired point, and
- e) manipulate the rod to have the teeth on the rake extend down after the rake reaches the desired point and to pull the rake with its teeth extending down against the

leaves and debris to said one spike. (col. 2, lines 14-44 discloses the method including raking the debris and then turning the rake backwards to sweep the debris under the spikes).

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 14 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Despain et al.
4. Re claim 14, Despain et al. discloses a method for a workman (16) working from a single position (fig 1) to clean a gutter (14) supported by a plurality of spikes (48) spaced along the gutter and attaching the gutter to a roof (18), the method comprising:
  - a) providing the workman with a rod (12),
  - b) providing a rake (10) on one end of the rod,
  - c) the rake being small enough to be manipulated through the gutter and beneath the spikes responsive to manipulation of the rod by the workman (col. 2, lines 32-38; col. 6, lines 14-34).
  - d) the workman positioning himself with at least twelve feet of the gutter extending beyond each side of the workman (see fig 1; as far as can be seen, at least twelve feet of the gutter extends on both sides of the operator 16),
  - e) the workman manipulating the rod to rake in beneath the spikes leaves and debris within twelve feet away from each side of the workman.

Despain et al. does not disclose how far the spikes are apart from each other since gutter spikes are usually positioned at a standard distance. Despain et al does not

disclose the rod is at least twelve feet in length, he discloses "the length of handle can vary depending on the distance on the distance the operator desires to stand away from the edge of the gutter" (col. 5, lines 15-19). It would have been obvious to one of ordinary skill in the art to provide an operator with a gutter cleaner of twelve feet in length in order to clean twelve feet on both sides of the operator equaling twenty-four feet altogether.

#### ***Allowable Subject Matter***

Claim 16 is allowed.

#### ***Response to Arguments***

Applicant's arguments with respect to claims 13-16 have been considered but are moot in view of the new ground(s) of rejection as above.

#### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

THE REPLY FILED 26 January 2006 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE.

1.  The reply was filed after a final rejection, but prior to or on the same day as filing a Notice of Appeal. To avoid abandonment of this application, applicant must timely file one of the following replies: (1) an amendment, affidavit, or other evidence, which places the application in condition for allowance; (2) a Notice of Appeal (with appeal fee) in compliance with 37 CFR 41.31; or (3) a Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. The reply must be filed within one of the following time periods:

a)  The period for reply expires 3 months from the mailing date of the final rejection.  
 b)  The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection.

Examiner Note: If box 1 is checked, check either box (a) or (b). ONLY CHECK BOX (b) WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**NOTICE OF APPEAL**

2.  The Notice of Appeal was filed on       . A brief in compliance with 37 CFR 41.37 must be filed within two months of the date of filing the Notice of Appeal (37 CFR 41.37(a)), or any extension thereof (37 CFR 41.37(e)), to avoid dismissal of the appeal. Since a Notice of Appeal has been filed, any reply must be filed within the time period set forth in 37 CFR 41.37(a).

**AMENDMENTS**

3.  The proposed amendment(s) filed after a final rejection, but prior to the date of filing a brief, will not be entered because  
 (a)  They raise new issues that would require further consideration and/or search (see NOTE below);  
 (b)  They raise the issue of new matter (see NOTE below);  
 (c)  They are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or  
 (d)  They present additional claims without canceling a corresponding number of finally rejected claims.

NOTE:       . (See 37 CFR 1.116 and 41.33(a)).

4.  The amendments are not in compliance with 37 CFR 1.121. See attached Notice of Non-Compliant Amendment (PTOL-324).  
 5.  Applicant's reply has overcome the following rejection(s):       .  
 6.  Newly proposed or amended claim(s)        would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).

7.  For purposes of appeal, the proposed amendment(s): a)  will not be entered, or b)  will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.

The status of the claim(s) is (or will be) as follows:

Claim(s) allowed:       .

Claim(s) objected to:       .

Claim(s) rejected:       .

Claim(s) withdrawn from consideration:       .

**AFFIDAVIT OR OTHER EVIDENCE**

8.  The affidavit or other evidence filed after a final action, but before or on the date of filing a Notice of Appeal will not be entered because applicant failed to provide a showing of good and sufficient reasons why the affidavit or other evidence is necessary and was not earlier presented. See 37 CFR 1.116(e).  
 9.  The affidavit or other evidence filed after the date of filing a Notice of Appeal, but prior to the date of filing a brief, will not be entered because the affidavit or other evidence failed to overcome all rejections under appeal and/or appellant fails to provide a showing of good and sufficient reasons why it is necessary and was not earlier presented. See 37 CFR 41.33(d)(1).  
 10.  The affidavit or other evidence is entered. An explanation of the status of the claims after entry is below or attached.

**REQUEST FOR RECONSIDERATION/OTHER**

11.  The request for reconsideration has been considered but does NOT place the application in condition for allowance because:  
        
 12.  Note the attached Information Disclosure Statement(s). (PTO/SB/08) Paper No(s).
